Safety Data Sheet  

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

Product Name  ● Cleaner
Synonyms  ● Light Aliphatic; Solvent Naptha (Petroleum)
CAS Number  ● 64742-89-8
EC Number  ● 265-192-2

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified use(s)  ● Construction

1.3 Details of the supplier of the safety data sheet

Manufacturer  ● Firestone Building Products Company
250 West 96th Street
Indianapolis, IN 46260
United States
genflexmsds@bfdp.com

Telephone (General)  ● 800-428-4442

1.4 Emergency telephone number

Manufacturer  ● (800) 424-9300 - CHEMTREC
Manufacturer  ● (703) 527-3887 - CHEMTREC - International

Section 2: Hazards Identification

EU/EEC

According to EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture

CLP  ● Aspiration 1 - H304
     ● Skin Irritation 2 - H315
     ● Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects - H336
     ● Hazardous to the aquatic environment Chronic 2 - H411

DSD/DPD  ● Flammable
     ● Irritant (Xi)
     ● Harmful (Xn)
     ● Dangerous to the Environment (N)
     ● R11, R38, R65, R67, R51/53

2.2 Label Elements

CLP

DANGER
United States (US)

According to OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the substance or mixture

OSHA HCS 2012

- Flammable Liquids 2 - H225
- Aspiration 1 - H304
- Skin Irritation 2 - H315
- Eye Irritation 2A - H319
- Specific Target Organ Toxicity Single Exposure 3: Respiratory Tract Irritation - H335
- Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects - H336
2.2 Label elements

OSHA HCS 2012

**DANGER**

- Highly flammable liquid and vapour - H225
- May be fatal if swallowed and enters airways - H304
- Causes skin irritation - H315
- Causes serious eye irritation - H319
- May cause respiratory irritation - H335
- May cause drowsiness or dizziness - H336

**Precautionary statements**

**Prevention**
- Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking. - P210
- Keep container tightly closed. - P233
- Ground and/or bond container and receiving equipment. - P240
- Use explosion-proof electrical/ventilating/ lighting/equipment. - P241
- Use only non-sparking tools. - P242
- Take precautionary measures against static discharge. - P243
- Avoid breathing fume/mist/vapours/spray. - P261
- Wash thoroughly after handling. - P264
- Use only outdoors or in a well-ventilated area. - P271
- Wear protective gloves/protective clothing/eye protection/face protection. - P280

**Response**
- In case of fire: Use appropriate media for extinction. - P370+P378
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. - P304+P340
- Call a POISON CENTER or doctor/physician if you feel unwell. - P312
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. - P303+P361+P353
- Specific treatment, see supplemental first aid information. - P321
- If skin irritation occurs: Get medical advice/attention. - P332+P313
- Take off contaminated clothing and wash before reuse. - P362
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. - P305+P351+P338
- If eye irritation persists: Get medical advice/attention. - P337+P313
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. - P301+P310
- Do NOT induce vomiting. - P331

**Storage/Disposal**
- Store in a well-ventilated place. Keep cool. - P403+P235
- Keep container tightly closed. - P233
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501

2.3 Other hazards

OSHA HCS 2012

Canada
According to WHMIS

2.1 Classification of the substance or mixture

WHMIS
- Flammable Liquids - B2
- Other Toxic Effects - D2B

2.2 Label elements
2.3 Other hazards

In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

---

### Section 3 - Composition/Information on Ingredients

#### 3.1 Substances

| Chemical Name                  | Identifiers         | %    | LD50/LC50 | Classifications According to Regulation/Directive                                      | Comments |
|--------------------------------|---------------------|------|-----------|------------------------------------------------------------------------------------------------|
| Light aliphatic solvent naphtha| CAS:64742-89-8      | 100% | NDA       | EU DSD/DPD: Self Classified: N; R51/53, Xi R38, Xn R67, R65 F R11                        |
| EC Number:265-192-2             |                     |      |           | EU CLP: Self Classified: Skin Irrit. 2, H315; Asp. Tox. 1, H304; STOT SE 3: Narc, H336; Aquatic Chronic 2, H411 |
|                                |                     |      |           | OSHA HCS 2012: Eye Irrit. 2A; Skin Irrit. 2; Asp. Tox. 1; STOT SE 3: Narc. & Resp. Irrit.; Flam. Liq. 2 |
|                                |                     |      |           | NDA                                                                                      |

#### 3.2 Mixtures

- Material does not meet the criteria of a mixture in accordance with Regulation (EC) No 1272/2008.

---

### Section 4 - First Aid Measures

#### 4.1 Description of first aid measures

**Inhalation**
- Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Get medical attention if artificial oxygen is administered.

**Skin**
- In case of contact with substance, immediately flush skin with running water for at least 20 minutes. For minor skin contact, avoid spreading material on unaffected skin. Remove and isolate contaminated clothing and shoes. Call 911 or emergency medical service.

**Eye**
- In case of contact with substance, immediately flush eyes with running water for at least 20 minutes.

**Ingestion**
- Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Get medical attention immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.
4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician
- If material is ingested and aspirated into the lungs it may cause chemical pneumonitis. Treat appropriately.

Section 5 - Firefighting Measures

5.1 Extinguishing media
Suitable Extinguishing Media
- LARGE FIRES: Water spray, fog or alcohol-resistant foam.
- SMALL FIRES: Dry chemical, CO2, water spray or alcohol-resistant foam.

Unsuitable Extinguishing Media
- Do not use a direct stream of water.

5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
- Containers may explode when heated.
- Vapor explosion hazard indoors, outdoors or in sewers.
- HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or flames.
- Many liquids are lighter than water.
- Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks).
- Runoff to sewer may create fire or explosion hazard.
- Vapors may form explosive mixtures with air.
- Vapors may travel to source of ignition and flash back.

Hazardous Combustion Products
- No data available

5.3 Advice for firefighters
- Structural firefighters’ protective clothing will only provide limited protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Move containers from fire area if you can do it without risk.
- LARGE FIRES: Cool containers with flooding quantities of water until well after fire is out.
- LARGE FIRES: Dike fire-control water for later disposal.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid contact with skin and eyes. Ventilate enclosed areas. Wear appropriate personal protective equipment, avoid direct contact.

Emergency Procedures
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Stay upwind. Keep out of low areas. Keep unauthorized personnel away. Ventilate closed spaces before entering.

6.2 Environmental precautions
- Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures
- SMALL SPILLS: Take up with sand or other non-combustible absorbent material and place into containers for later disposal.
- Use clean non-sparking tools to collect absorbed material.
- All equipment used when handling the product must be grounded.
- LARGE SPILLS: Dike far ahead of spill for later disposal.
- A vapor suppressing foam may be used to reduce vapors.

6.4 Reference to other sections
- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.
Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling
- Keep away from heat, sparks, and flame – No Smoking. Keep containers closed. Vapors of this material are heavier than air and will collect in low or confined areas. Containers, even those that have been emptied, can contain explosive vapors. Do not cut, drill, grind, weld or perform similar operations near container. Static electricity may accumulate and create a fire hazard. Take precautionary measures against static charges. Bond and ground all transfer containers and equipment. Use only with adequate ventilation. Wear appropriate personal protective equipment. Ground fixed equipment. Do not breathe (dust, vapor or spray mist).

7.2 Conditions for safe storage, including any incompatibilities

Storage
- Store in a cool/low-temperature, well-ventilated place away from heat and ignition sources. Store locked up. Keep container closed when not in use. Keep away from incompatible materials.

7.3 Specific end use(s)
- Refer to Section 1.2 - Relevant identified uses.

Section 8 - Exposure Controls/Personal Protection

8.1 Control parameters

Exposure Limits/Guidelines
- No exposure limits/guidelines available for the material or the components.

8.2 Exposure controls

Engineering Measures/Controls
- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use explosion-proof electrical/ventilating/lighting/equipment.

Personal Protective Equipment

Respiratory
- Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face
- Wear safety glasses.

Skin/Body
- Wear appropriate gloves. Wear protective clothing

Environmental Exposure Controls
- Follow best practice for site management and disposal of waste. Avoid release to the environment.

Section 9 - Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Preparation Date: 06/May/2011
Revision Date: 26/August/2013
Water Solubility: Negligible

Explosive Properties: Not explosive.

Oxidizing Properties: Not an oxidizer.

Viscosity: Data lacking

Vapor Pressure: 2 mmHg (torr) @ 20°C (68°F)

Vapor Density: 3 Air=1

Evaporation Rate: < 1 n-Butyl Acetate = 1

VOC (Wt.): 2.88 lbs/gal

Flammability:

Flash Point: 65°F (18.333°C) TCC (Tagliabue Closed Cup)

UEL: 6.7%

LEL: 0.9%

Flash Point (solid, gas): Flammable Liquid.

Volatiles (Wt.): 100%

Environmental:

Octanol/Water Partition coefficient: Data lacking

9.2 Other Information

- No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

- No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

- Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions

- Hazardous polymerization will not occur.

10.4 Conditions to avoid

- Avoid flames, sparks, or other sources of ignition. Excess heat. Incompatible materials.

10.5 Incompatible materials

- Strong oxidizing agents.

10.6 Hazardous decomposition products

- None known.

Section 11 - Toxicological Information

GHS Properties

- Acute toxicity: EU/CLP • Classification criteria not met
- OSHA HCS 2012 • Classification criteria not met

- Aspiration Hazard: EU/CLP • Aspiration 1
- OSHA HCS 2012 • Aspiration 1
### Potential Health Effects

#### Inhalation

**Acute (Immediate)**
- May cause respiratory irritation. May affect the central nervous system. Symptoms may include dizziness, drowsiness, lethargy, coma and death.

**Chronic (Delayed)**
- No data available.

#### Skin

**Acute (Immediate)**
- Causes skin irritation.

**Chronic (Delayed)**
- No data available.

#### Eye

**Acute (Immediate)**
- Causes serious eye irritation.

**Chronic (Delayed)**
- No data available.

#### Ingestion

**Acute (Immediate)**
- Material may be aspirated into the lungs during ingestion and/or subsequent vomiting. Aspiration of this material will cause severe lung injury, chemical pneumonitis, pulmonary edema or death.

**Chronic (Delayed)**
- No data available.

- Material data lacking.

12.3 Bioaccumulative potential
- Material data lacking.

12.4 Mobility in Soil
- Material data lacking.

12.5 Results of PBT and vPvB assessment
- No PBT and vPvB assessment has been conducted.

12.6 Other adverse effects
Potential Environmental Effects
- May cause long lasting harmful effects to aquatic life.

Section 13 - Disposal Considerations

13.1 Waste treatment methods
Product waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste
- Containers, even those that have been emptied, can contain explosive vapors. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
