Galvalume is a registered trademark of BIEC International, Inc.

Installation
Position seam plates over the membrane as specified by GenFlex Specifications and Details. Attach the plates through the membrane and into the roof deck using GenFlex GypTec Fasteners. Install the plates with the “GenFlex” name showing.

Pullout Values - Results will vary depending on condition of deck. Verify pullout by on-site testing with a minimum 1.5” (38.1 mm) penetration into the decks. Check current GenFlex specifications for exceptions and/or changes.

Installation Precautions
- Eye protection must be worn during installation of the fasteners to prevent injury.
- Care should be used when handling and or transporting buckets of fasteners
- Insulation plates are manufactured from Galvume metal. Precautions should be taken to avoid metal slivers when handling and during installation.

- Overdriving the fastener can cause damage to the insulation facer.
- Fasteners should never penetrate through the underside of the deck
