RE: PRE-JOB SURVEY

OCTOBER 8, 2013

Having trouble locating the Pre-Job Survey?

We understand that you need to be able to access the tools you use most often, quickly and easily. With the recent redesign of the [GenFlex website](#), things are slightly rearranged in some cases. One of those is the Pre-Job Survey. To access it, simply rollover "Tools" in the main navigation, and click Pre-Job Survey. Or, you can bookmark the page by clicking on the link in this email and adding it to your favorites.

To do so, access the [Pre-Job Survey](#) and then:

- In Internet Explorer 8, click Favorites to the left of the first tab, and then click Add to Favorites
- In Firefox, click the star on the right side of the address bar
- In Google Chrome, click the star on the right side of the address bar

We hope this helps make your job a little easier. Because, above all else, we value our partnership with you. If there are any other suggestions you may have, please contact your local GenFlex expert or send us a note through the [Contact Us](#) page on GenFlex.com.

Sincerely,

General Manger
