Metal Pitch Pan with solid corners, 3" (76 mm) wide flange with continuous, rounded corners and soldered metal laps. For pourable sealer pockets containing more than one penetration, clearance between all penetrations and penetrations from the pocket edges must be minimum 1" (25 mm).

1. Apply a high profile bead of GenFlex Edge Caulk on the outside edge of the completed seam.
2. When using GenFlex Seam Tape and GenFlex Bar Cover Tape, first clean the membrane with GenFlex EPDM Cleaner. Then apply GenFlex Primer.
