PRESS RELEASE

August 28, 2015

**To:** GenFlex Distributors and Contractors

**Subject:** Massachusetts VOC Regulation Changes

Effective September 1, 2015, new VOC regulations will be in effect for the entire state of Massachusetts.

In an on-going effort to keep you informed and help you to comply with VOC regulations, GenFlex Roofing Systems would like to make you aware that, effective September 1, 2015, new VOC regulations will be in effect for the entire state of Massachusetts.

GenFlex will discontinue the sale of the standard adhesive/primer and sealant products in VOC-regulated areas (shown in red in the below graphic). To meet the various VOC regulations within the United States, GenFlex offers a full range of low VOC and solvent free products. You can find more information on these products on our website at [www.GenFlex.com](http://www.GenFlex.com). Please note that the regulation does permit the use of standard VOC products until May 1, 2016.

GenFlex is dedicated to helping you stay informed of the latest product and technical information from our company. For more information, please see [Massachusetts VOC restrictions rule](#).
