GENFLEX FLEXGUARD™ PEEL & STICK™ WALKWAY PAD

**Item Description**
30" X 30" X 5/16"
(762 mm X 762 mm X 7.9 mm)

**Item Number**
W590010121

**Product Information**
FlexGuard Peel & Stick Walkway Pads are high quality walkway pads with Peel & Stick tape adhesive factory laminated to the bottom. They help protect the membrane from rooftop foot traffic. The material incorporates excellent levels of hardness, tensile strength, tear resistance, wear, and displays excellent cold flexibility.

The owner is responsible for maintaining walkways in the following areas:
- At all rooftop access points (ladders, hatches, doorways, etc.)
- Around all roof-mounted mechanical equipment requiring maintenance.
- Roofs subjected to traffic more frequently than once a month

**Installation**
1. Membrane to receive tape portion of walkway pad shall be free from dust, dirt, and other contaminants. Clean contaminated surfaces with a clean rag using appropriate GenFlex Splice Cleaner.
2. Apply GenFlex Primer in an even coat using Scrub Pad & handle on the membrane to receive tape and underside perimeter area of walkway pad and allow to thoroughly dry before proceeding.
3. Place walkway pad into position on primed membrane and remove release paper from the tape.
4. Press pad firmly into place on primed membrane and roll with steel or silicone roller.

**Precautions**
GenFlex FlexGuard Peel & Stick Walkway Pads should not be applied over a field fabricated seam.

**Storage**

Store in original unopened container indoors at temperatures between 60 °F (16 °C) and 80 °F (27 °C). Do not store on roof in direct sunlight or at temperatures above 80 °F (27 °C). When exposed to lower temperatures, restore to room temperature prior to use.

**Shelf Life**

24 months; shelf life will be shortened if exposed to elevated temperatures.

**Precautionary Data**

Take care when moving, transporting, and handling, etc., to avoid sources of punctures and physical damages.

Isolate waste products such as petroleum products, greases, oils (mineral and vegetable), and animal fats from the GenFlex membrane.

Contact GenFlex Roofing Systems Technical Department for specific recommendations.

Assure the structural decking will support the loads incurred by the material stored on roof top. The deck load limitations should be specified by the project designer.

Refer to Safety Data Sheet for additional information.

Please contact Quality Building Services Technical Department at 1-800-443-4272 option 1, for further information.
